Pacer Technology Super Glue Flow Control Dispenser (15177) provides a unique package that allows the user to dispense drops or a stream of adhesive easily for different bonding applications. The dispenser sits upright on flat surfaces. Super Glue is a quick-setting adhesive that bonds strongly and works best on:

- Metal
- Rubber
- Most Plastics
- Aluminum
- Ceramic
- China
- Wood
- Pottery
- Jewelry

**NOTE:** Not for use with Teflon, polyethylene, polypropylene, certain silicone rubber types, glass, rear view mirrors or parts that are subjected to great shock or continuous immersion in water. Not for use with materials such as paper, fabric or foam rubber.

**PROPERTIES:**

- **Initial color:** Clear, transparent
- **Final color:** Clear
- **Set time:** 10-30 seconds
- **Full Strength:** 24 hours
- **Operating Temperature Range:** -65\(^\circ\)F to 180\(^\circ\)F (-54\(^\circ\)C to 82\(^\circ\)C)

**USE INSTRUCTIONS:**

**NOTE:** For best results, surfaces should be clean & dry and parts should mate well.

1. Protect clothing and work surfaces (metal foil works well). Use in a well-ventilated area. Keep container pointed away from face and body. Carefully follow opening directions on package. Unscrew cap while keeping container pointed away from face.
2. Apply to one surface, using 1 drop per square inch of surface. Do not spread glue with fingers – use applicator nozzle tip. Assemble parts and hold together with pressure for 15 seconds or until set.
3. Wipe tip if adhesive has accumulated before resealing cap securely.

**STORAGE AND SHELF LIFE:** Replace outer cap and store upright in a cool area away from sunlight or heat sources. Stored under these conditions, a one-year shelf life can be expected.

**SAFETY AND HANDLING PRECAUTIONS**

Contains cyanoacrylate. **CAUTION:** Eye Irritant. Bonds skin & eyes in seconds. Use with adequate ventilation. Avoid contact with clothing as can cause burn. In case of eye contact, flush with water for 15 minutes; get medical attention for eye or internal contact. To remove from skin, soak in acetone nail polish remover & gently peel adhesive off with fingernail; water exposure will wear off residual adhesive in a few days (do not use polish remover around eye area). **KEEP OUT OF REACH OF CHILDREN.**
