2-Methoxyethyl 2-cyanoacrylate	70 - 98	27816-23-5
Hydroquinone	< 2.5	123-31-9
2-Propenoic acid, 2-methyl-, methyl ester	< 2.5	80-62-6

4. First-aid measures

Eye: Remove contact lenses, if present and easy to do. Wash eyes with plenty of clean and cool water for at least 10 minutes while pulling eyelids up, and seek medical assistance.

Skin: Remove contaminated clothing. Wash skin vigorously with water and soap or a suitable skin cleaner. NEVER use solvents or thinners.

Ingestion: If accidentally ingested, seek immediate medical attention. Keep calm. NEVER induce vomiting.

Inhalation: Take the victim into open air; keep them warm and calm. If breathing is irregular or stops, perform artificial respiration.

5. Fire-fighting measures

Suitable extinguishing media: Extinguisher powder or CO₂. In case of more serious fires, also alcohol-resistant foam and water spray. DO NOT use a direct stream of water to extinguish. In the presence of electrical voltage, you cannot use water or foam as extinguishing media.

Fire fighting procedures: Use water to cool tanks, cisterns, or containers close to the heat source or fire. Take wind direction into account. Prevent the products used to fight the fire from going into drains, sewers, or waterways.

Fire fighting equipment: According to the size of the fire, it may be necessary to use protective suits against the heat, individual breathing equipment, gloves, protective goggles or facemasks, and boots.

Hazardous decomposition products: Fire can cause thick, black smoke. As a result of thermal decomposition, dangerous products can form: carbon monoxide, carbon dioxide. Exposure to combustion or decomposition products can be harmful to your health.

6. Accidental release measures

Environmental precautions

Water spill: Prevent the contamination of drains, surface or subterranean waters, and the ground.

Land spill: Prevent the contamination of drains, surface or subterranean waters, and the ground.

General procedures: Pick up the spill with non-combustible absorbent materials (soil, sand, vermiculite, diatomite, etc.). Pour the product and the absorbent in an appropriate container. The contaminated area should be immediately cleaned with an appropriate decontaminator. Pour the decontaminator on the remains in an opened container and let it act various days until no further reaction is produced.

7. Handling and storage

SAFETY DATA SHEET

Precautions for safe handling: Never use pressure to empty the containers. They are not pressure-resistant containers. In the application area, smoking, eating, and drinking must be prohibited. Follow legislation on occupational health and safety. Keep the product in containers made of a material identical to the original.

Conditions for safe storage: Store according to local legislation. Observe indications on the label. Store containers between 5 and 35C, in a dry and well-ventilated place, far from sources of heat and direct solar light. Keep far away from ignition points. Keep away from oxidizing agents and from highly acidic or alkaline materials. Do not smoke. Prevent the entry of non-authorized persons. Once the containers are open, they must be carefully closed and placed vertically to prevent spills.

Appropriate engineering controls: Provide adequate ventilation, which can be achieved by using good local exhaust-ventilation and good general exhaust system.

Individual protection measures, such as personal protective equipment

Eye / face protection: Chemical safety goggles are recommended where splashing is possible.

Skin protection - hand protection: Impervious gloves such as nitrile gloves are suggested to prevent skin contact. Do not use PVC, Nylon, or cotton materials. Contact your glove supplier for selection assistance.

Respiratory protection: If needed, an approved respirator with organic vapor cartridges may be used. For higher exposures, supplied air respirator may be required. Respirator selection and use should be based on contaminant type, form, and concentration. follow applicable regulations and good Industrial Hygiene practice.
